

I would like to say that KLOVE has taken the place of my church for the last two years and love the worship I have everyday when I listen to KLOVE and would hate to see that taken away from me and many others who are in the same position that I am. If you were to KLOVE off the FM broadcast system, the affect in my community would be tremendous. We San Antonians love KLOVE and support them finacially and through prayer. I believe that there are many people who have come to know Jesus, our Lord and Savior through this ministry and believe that this continues to happen on a daily basis. Once again, please keep KLOVE in our FM translator as it is now.
